

|    | Document ID       | Issue Date | Pages | Title   | Current OR |
|----|-------------------|------------|-------|---|------------|
| 1  | US 20040037354 A1 | 20040226   | 19    | Communication receiver with virtual parallel equalizers                     | 375/229    |
| 2  | US 20040013189 A1 | 20040122   | 25    | Soft slicer in a hybrid decision feedback equalizer                         | 375/233    |
| 3  | US 20040001538 A1 | 20040101   | 10    | Error convergence measurement circuit for providing convergence of a filter | 375/229    |
| 4  | US 20020181555 A1 | 20021205   | 10    | Method and device for demodulating signals from multiple users              | 375/147    |
| 5  | US 6937648 B2     | 20050830   | 20    | Equalizer for communication over noisy channels                             | 375/229    |
| 6  | US 6904110 B2     | 20050607   | 183   | Channel equalization system and method                                      | 375/350    |
| 7  | US 6876699 B1     | 20050405   | 18    | Filter circuit for a bit pump and method of configuring the same            | 375/233    |
| 8  | US 6862326 B1     | 20050301   | 25    | Whitening matched filter for use in a communications receiver               | 375/343    |
| 9  | US 6765958 B1     | 20040720   | 17    | High-speed adaptive interconnect architecture                               | 375/232    |
| 10 | US 6618451 B1     | 20030909   | 14    | Efficient reduced state maximum likelihood sequence estimator               | 375/341    |
| 11 | US 6337878 B1     | 20020108   | 25    | Adaptive equalizer with decision directed constant modulus algorithm        | 375/229    |
| 12 | US 6055268 A      | 20000425   | 75    | Multimode digital modem   | 375/229    |
| 13 | US 6038251 A      | 20000314   | 75    | Direct equalization method  | 375/222    |

|           | <b>Current<br/>XRef</b>                                 | <b>Inventor</b>              |
